

# Family Support Program – St George Newsletter

## TOO GOOD TO MISS!

This exciting presentation is part of the getting together of parents and community agencies involved in the area of disability to be able to plan “where to next”, as well as address any areas or issues where you, as parents, feel need to be discussed.

This presentation by Annette Mayer will cover such topics as:

- Person Centred Planning
- Why do we plan
- Essential Lifestyle planning
- Planning Alternative Tomorrows with Hope (PATH)
- Pathways to Possibilities
- Interactive planning positive pathways

All these topics tie in with current and future plans that I do with each family on an individual basis.

Due to the vast area that I cover, this first presentation will take place at two venues – St George and Tara. Later on in the year we will look at other towns to even out the need for those parents that had to travel distances to get to this our first presentation.

Onward planning is essential to be able to look at the best ways to utilise your child/ren’s plan and I can only encourage you individually, or as a family to attend. The Plan will cover costs of fuel. Please contact me with any special needs you may require.

I will be in contact next week with regards to clarifying attendance.

## Pauline
